

1 June 2014

Newmark Security plc
(“Newmark” or the “Company”)

Opening of Hong Kong Office

Newmark Security plc (AIM:NWT), a leading security solutions group, is pleased to inform shareholders that its wholly owned subsidiary Grosvenor Technology limited (“Grosvenor”) has opened a new office in Hong Kong.

This office will act as a hub for Grosvenor as entry into the Asian market. Three employees have been appointed: a Technical Services Engineer, a VP of Sales and a Business Development Director.

Marie-Claire Dwek, CEO of Newmark commented: *“We are delighted to have opened an office in Hong Kong and see this as an important milestone within our strategy to expand our operations into growing markets. We look forward to keeping shareholders informed of our developments here.”*

Further information

Technical Services Engineer- Kenneth Yau (BSc)

Kenneth Yau will provide technical support for the workforce management and access control systems in Hong Kong as well as providing extended support to UK and global clients.

Yau has significant SQL implementation experience and has worked for a number of local companies in Hong Kong, as well as for a Western multi-national company.

Vice President of Sales - Nero Ng

Nero Ng has previously worked with Rosslare, HID Global and Tyco and has over ten years experience in sales and technical management in the product manufacturing sector.

He has previously built and led a sales team in China, and has extensive contacts throughout Asia.

Business Development Director – James Chan (BEng, MBA)

James Chan has 19 years of experience in access control and security for the enterprise and hospitality sectors.

Chan has an additional skill set in developing and managing channel partners in the APAC region.

Newmark Security Plc

Newmark Security PLC is a leading provider of electronic and physical security systems, which focus on personal security and the safety of assets. Operating through two established and wholly owned divisions, Grosvenor Technology (Electronic) and Safetell (Physical Security), the Group listed on AIM in 1997.

Grosvenor Technology provides state of the art access control and data acquisition systems delivered via its reputable JANUS access control platform and its CUSTOM brand data-collection terminals. The next generation and recently launched SATEON software is a new and innovative access control concept which delivers all the features of a software based system but in the cloud which combines the advantages of a software based system with cloud technology to improve lifecycle cost, install speed and allow for instant maintenance from anywhere in the world. Grosvenor Technology clients include BAE Systems, UK Air Traffic Control, BSkyB, Merrill Lynch, Bank of America, M & S, Morrisons, Tesco, Network Rail, government departments and many universities. More information can be found at www.grosvenortechnology.com

Offering personnel and asset protection since 1987, Safetell is the UK's leading provider of fixed and reactive security screens, reception counters, cash management systems and associated security equipment. Safetell's customers range from leading blue chip organisations to single sites including banks and building societies, police forces and the Post Office, local authorities and government departments, forecourt retailers and supermarket chains.
